INTRODUCTION

This brochure presents in some details the particulars of the vast Centenary budget. It is sent forth with the hope that a great multitude will assume responsibility for the items set forth herein.

It is a catalogue of investments one may make in the Kingdom of God.

It is a survey of the spiritual territory to be taken in JESUS' NAME.

It represents both reinforcements and sinews of war to the thin line which has occupied the front trenches of the World's outposts in the advance of the Kingdom of God against ignorance, superstition, selfishness and greed.

To "Carry On" this program to the end will bring salvation, education, civilization and the pursuit of happiness to the heart hungry millions of heathen lands. It will mean making our own land a thoroughly Christian nation, thereby bringing thousands of friendless and neglected ones into a safe citizenship. To the war-broken lands of Europe it will mean the rebuilding of ruined towns and villages, care for the orphans and the re-establishment of the people in their homes. To those who "Carry On" this program, it will mean the quickening of their spiritual life, the broadening of their intelligence, the widening of their sympathy—a spiritual "Croix de Guerre."

Plunged far and wide to the sympathetic heart of a truly missionary church is the special message of this spiritual catalogue. For a hundred years men and women have been "Carrying On" the missionary work of American Methodism. One by one these pioneers have passed back the words, "Carry On." And now in this eventful era of the world's history, God's soldiers must heed the call. We heartily believe that the Methodists of the great South and West will respond to this appeal with undaunted courage, conviction and sacrifice; and that with faith undimmed they will "Carry On" the great enterprise which the Church has undertaken.

The total of \$35,000,000 asked in the Centenary is a summation of itemized askings from all the foreign mission fields; mission operations in the United States; the regular income for missions from all sources, and the reconstruction program in Europe. These askings are based upon a scientific survey and were approved by the missions in each field by the constituted boards, the Centenary Commission, and the endorsement of the General Conference.

Full information and the story of any object contained in these pages will be furnished on application to the Centenary Bureau of Specials, 810 Broadway, Nashville, Tenn.

The objects marked with a star are reserved exclusively for Sunday Schools. The Department of Missionary Education of the Sunday School Board will give information concerning them.

There are many other objects which are not included in this book. Write for additional items if you do not find what you want.

THE HEART OF THE CENTENARY IS LAID BARE TO THE CHURCH IN THIS BOOK.

AFRICA

"I believe that if the facts as they exist in Africa could only be brought home to the churches in America; that the people of Africa are actually begging for teachers, and millions are now in darkness, not by reason of their own neglect, but because Christian people have not obeyed the Great Commission, they would rise up and put an end to conditions under which it can be truly said that the people are asking in vain for the privilege of becoming Christians."

CENTENARY PROGRAM—GENERAL WORK.

MISSIONARIES

Total number needed..... 14
 Salary of each.....\$1,200
 Travel and outfit, each..... 1,000

Type of workers:

Evangelists 6
 Teachers 2
 Physicians 4
 Dentist 1
 Captain 1

BUILDINGS

MISCELLANEOUS

Drugs	\$3,000	Running expenses, 2 hospitals.	3,000
Instruments and supplies	2,000	One small steamer.....	15,000
One printing press, type and equipment	2,000	Running expenses of steamer (five years)	2,500

The territory served by the Congo Mission covers over seventy thousand square miles, and there are on the field at present only eight missionaries.

The two teachers will make possible the great educational ideal of the Congo Mission, to teach every boy and girl in the Batetela tribe to read and to write the Batetela language.

The four physicians are needed so that, at no time, will any one of our stations (which should number three at the close of the five years) be left unsupplied and the lives of missionaries jeopardized by the lack of this important person.

The dentist can divide his time between the Methodist and Presbyterian missions and find plenty to keep him busy.

The captain will be needed for the steamboat which is to be put on the Sankuru and Kasai rivers and their tributaries.

No work of the Congo Mission is more promising than the Boys' School, for here the boys are kept constantly in touch with the Mission and the missionaries and away from the devastating influences of their own native villages. They are taught to read and write, they become thoroughly instructed in the Scriptures.

Explanation should be made of the seeming discrepancy between the cost of the station churches and of the homes for missionaries. Churches in the Congo do not need to be enclosed; a neat fence, built of the ever-present palm, suffices to keep out intruding animals. The floor is made of dirt firmly beaten, and as the African native wears no shoes, this floor does not soon become dusty. On the other hand, the missionary's home must have walls, it must have board floors built high above the ground, it must be well screened to keep out the mosquito, and entirely surrounded by a wide verandah to protect the walls from rains and the inmates from the sun. Even with all these comforts the price is very low, not only on the homes, but on all the buildings. Labor is cheap and materials are free.

The schoolhouses, which are put down at one thousand dollars each, will be thoroughly equipped.

The equipment of the three workshops will consist largely of hardware, which will probably be bought in America, as American hardware is so much superior to any other.

Included in the hospitals will be lazarets for sleeping-sickness patients and for lepers.

REV. H. P. ANKER

REV. T. E. REEVE

MRS. H. P. ANKER

AN AFRICAN HOME

CENTENARY PROGRAM—WOMAN'S WORK.

MISSIONARIES

Total number needed.....	14
Salary for each.....	\$750
Travel and outfit, each.....	500
Type of workers:	
Evangelists	4
Teachers	6
Nurses	4

BUILDINGS AND EQUIPMENT

2 Missionary residences, each..\$	500
1 Bible School	500
2 Girls' School buildings, each.	400
2 Girls' Homes, each	400
Equipment:	
Bible School	50
2 Girls' Homes, each.....	75
2 Missionary residences, ea.	300
Medical work	1,000

The four nurses asked for will assist the four physicians.

No missionary is more greatly needed than the woman teacher. It is absolutely necessary to have women teachers for native women and girls.

In the Girls' Homes the native girls will be brought under the influence of the missionaries and kept under their influence. As the name indicates, they are to be homes, and no native girl knows the meaning of home in her village. It is a fact, when we say, that practically no native girl will ever arrive to pure womanhood unless she is taken from her village while still young and kept in a Mission Home.

THE EPWORTH LEAGUE HAS ASSUMED THE ENTIRE AFRICAN BUDGET.

SUNSET JUIZ DE FORA

BRAZIL

"After a careful study of the situation I have come to the conclusion that we have not in all the world a mission field whose deep moral needs and utter spiritual darkness constitute a more urgent missionary appeal than that in Brazil. The evangelization of this great country, with its millions steeped in superstition and ignorance, is a stupendous task, calling for the best we can give of heroism and sacrifice on the part of the missionaries and the Church at home."

REV. J. M. LANDER

CHURCHES AND CHAPELS

"If you could see some of the places where I preach the Gospel of Jesus Christ it would bring tears to your eyes and shame to your hearts. If a foreigner should come to your town, preaching some strange doctrine in an out-of-the-way street, in a little hole, dark and dirty, with not the least suggestion of comfort or hygiene, where all the surroundings bespeak inefficiency and smallness of purpose and lack of imagination, how long do you think you would stop to consider the claims of that man's religion on your life? This description may not mean much to you, but if you could stand by my side and look into the faces of men as they stop in the street and look for a moment into the place where I am preaching, and then pass on with an expression of pity or contempt written all over them, then you'd understand how my heart cries out for better material equipment, for preaching places that will not repulse more than our message attracts."

Our Mission in Brazil has established a most brilliant record in educational work. Granbery College, Union College, Piracicaba College, the Seminary, and the School of Pharmacy and Dentistry, all for boys, have done much for the Brazilians. A Union Theological Seminary and Evangelical University must have the support of our Church. An Industrial and Agricultural School must be founded and thirty-three parochial schools created. With our schools better equipped and the new ones put in operation the success of our educational enterprises in Brazil is assured.

RESIDENCES—PARSONAGES—MISCELLANEOUS

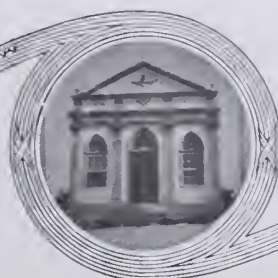

"Present conditions growing out of the world war and disorder call powerfully for a Christian statesmanship to face the program of the reconstruction period. Protestant Christianity in this country, the largest of the South American republics, faces the sublimest opportunity and the greatest responsibility that have yet come to the Church of Christ in Latin America."

"We need a hospital, orphans' home, a gasoline launch, a normal school, fifty schoolhouses for a great area in our present conference limits which should be opened up, and, above all, we have a vision of a hundred chapels supplied by our own young men."

BIG SPECIALS FOR SPECIAL GIFTS.

PUBLISHING HOUSE, SAO PAULO\$90,000

Publishing House (land included), \$27,500; Printing Equipment, \$30,000; 2 Residences, each \$7,500, \$15,000; 2 Residences, each \$3,750, \$7,500; 2 Residences, each \$5,000, \$10,000.

"In the United States there are only two industries which rank ahead of printing in the amount of capital invested and the value of output, and perhaps there is not a single agency in the world today which yields such a mighty influence. The Brazilian people are lovers of literature, yet it makes the heart sick to contemplate the poverty of what they have. A strong press with a steady output of new and good books would have a wonderful effect and would reach the people from the highest to the lowest. Put your mission publishing house on a firm foundation."

PEOPLES CENTRAL INSTITUTE, RIO DE JANEIRO\$52,000

Building, Land and Repairs, \$25,000; School, \$1,000; Seaman's Home (\$13,000 to be raised on the field), \$2,000; Nursery or Day Home, \$9,000; Hospital, \$9,000; Church, \$3,000.

MISS EMMA CHRISTINE

HOUSE IN JUIZ DE FORA

MISS AMELIA ELERDING

"The experiences of ten years have demonstrated the value of the present activities of People's Central Institute, and the time and opportunity has now come to establish and properly equip this plant in a permanent home. Such an institution and force baptized and filled constantly with the Spirit and love of Christ would give the Spirit of God a mighty agency for soul saving and character-building in the city of Rio de Janeiro, and would greatly influence the work of the Kingdom throughout the Republic of Brazil."

GRANBERY COLLEGE, JUIZ DE FORA.....\$162,000

Endowment, \$300,000; Dormitory, \$30,000; Science Building, \$75,000;
Library and Study Hall, \$10,000; Auditorium, \$17,000; Campus, \$5,000;
5 Teachers' Residences, each \$5,000, \$25,000.

"At Granbery we are trying to fill the need first of the primary classes, which is fundamental. Our people need the most elementary principles of instruction. Then there is the High School, where we try to prepare our students for entrance into the Seminary and to the professional schools of the country. As yet work of college grade is a luxury. It is so rare that it scarcely exists. In the Seminary we are striving to give the boys as thorough a course in Theology as is possible in three years' time. In the past the work has proven quite acceptable. But we need more men and means at our disposal so that we may do the work as it should be done."

NEW COLLEGE, PORTO ALEGRE.....\$152,500

Land, \$75,000; Building, \$75,000; Equipment, \$2,500.

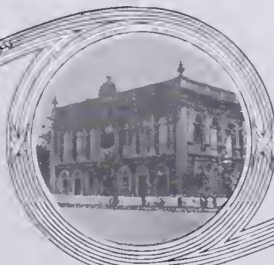

Of all the askings for Brazil, this is one of the most important. The plan is to build and equip a school for boys and young men at Porto Alegre, which will be the center of the educational system of the South Brazil Mission Conference. This section cannot be reached by Granbery College at Juiz de Fora.

MARY SUE BROWN

SCARRITT BIBLE AND TRAINING SCHOOL

KANSAS CITY, MISSOURI

Brazil's share in enlargement and equipment\$18,000

"The friendship now existing between Brazil and the United States makes the present a time of opportunity. Never before has this country been so ready to receive what the United States has to give her, because the relationship between the two countries is more friendly than ever before. This new understanding gives urgency to the present opportunity.

"There are no movements for the improvement of conditions among women and children. Perhaps one of the greatest needs of this land is some movement for the betterment of child life. The children live on the streets and their parents do not know how to teach them or control them. A large number of them are not in school, many of whom could not find places if they wished to attend. Some of the few Protestant children are not in school because their parents cannot conscientiously send them to public schools, where images of the Catholic Church are set up.

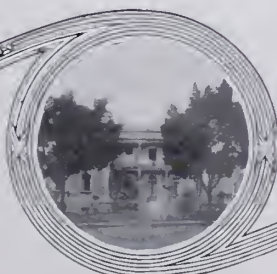

"The children know little of play and their only amusement is the moving picture, which is of a very low class and generally immoral."

3 Teachers (Soochow University Middle School No. 3), Huchow...	300
1 Chinese Writer, Shanghai	300

The China Mission Conference asks for ninety-nine native workers. Of this number the native Church pledges the support of forty-seven.

When China is evangelized, it will have been done largely by the native worker, for he it is who can go unto the uttermost parts and carry the Gospel in the native tongue.

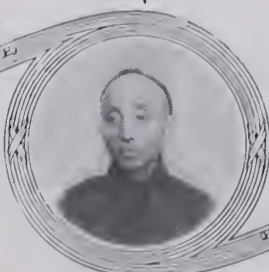

CHURCHES AND PARSONAGES

"There are seventy-five thousand people in this Chinese city and only 250 Christians. There are more than a hundred heathen temples, and only *three Christian Churches*. For seventy-five thousand people there are only five ordained preachers. O, that the Church at home could but see the fields as we see them."

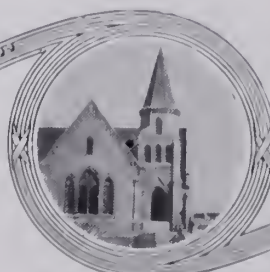

CHURCHES

EDUCATIONAL WORK

Whatever the wish of the Church may be she can never absolve herself from the responsibility of educating the people that accept her ministry. This holds good in all cases, but when China's needs are considered the responsibility becomes greater.

"Every Mission School Methodism plants in China means a battalion of soldiers in the battle for world democracy."

For other native parsonages see section on Churches.

The native pastor, in order to render to the Church the most efficient, un-interrupted service, must have a comfortable place in which to live. Eighty per cent of the native workers in China live in rented buildings. The money expended on these houses would, in a few years, build all that are asked for above.

BIG SPECIALS FOR SPECIAL GIFTS

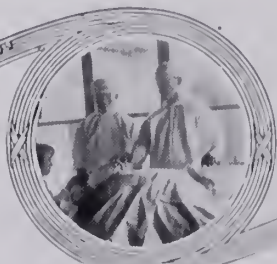

SOOCHOW UNIVERSITY, SOOCHOW\$88,600

The following items make up this budget: Science Hall, \$25,000; Dormitory, \$15,000; Gymnasium, \$15,000; Gas Plant, \$600; Laboratory, Up-keep and Equipment, \$10,000; Power and Light Plant, \$5,000; 6 Missionary Residences, each \$3,000.

"Few, if any, schools of equal size in America have better equipped men on their teaching staff than has Soochow University. If China is to be developed into a really great nation it must be done by the young men who are now being trained for leadership in this and similar institutions."

DR. J. B. FEARN

CHANGCHOW HOSPITAL

REV. T. A. HEARN

A FIRST-CLASS HOSPITAL PLANT, SOOCHOW.....\$75,000
Land and Building, \$50,000; Equipment, \$21,500; Residence, \$3,500.

In this city of 500,000 there should be a model hospital. We can no longer afford as the representatives of the Great Physician to do a grade of work less than the best. The present hospital treats sometimes as many as 20,000 patients a year, and performs more than 1,000 operations.

INSTITUTIONAL CHURCH (GRACE), SUNGKIANG\$22,500

"Our chapel seats only 100. We confidently expect to have at least 1,000 members within a very short time. We are on the edge of the main business center, and in the very heart of the home section and near the Chinese schools. Within ten minutes' walk of us are 1,000 students in non-Christian schools, and scores of them come to us constantly. The military barracks, with from one to three thousand soldiers, is also within a quarter of a mile of us. Here is a great field white to harvest, but NO HOUSE in which to gather the sheaves. WE CANNOT GO ANY FURTHER WITHOUT MORE ROOM."

INDUSTRIAL SCHOOL (place to be selected)\$20,000

China is now ripe for such an enterprise. It represents one of the outstanding needs of a country of four hundred million. Thousands of boys are hungering for an education and cannot get it because they have no money. An industrial school will give them the chance to become Christians, to be self-respecting, and self-sustaining—not only while in school but in the years to come. It is expected that the plant proposed will be self-supporting within five years.

SCHOOLS

"One of the most significant movements in China today is the education of women. Only a few years ago the Mission Schools were paying Chinese girls to attend school. Today not only our Mission Schools are full of paying students, but the Government has opened many schools for girls. The Republic brought a certain amount of freedom to the women and girls and they are eagerly appropriating it and reaching out for more. In this transition stage of social reconstruction, in this time of danger, they need protection and guidance. If Christian educational institutions are not provided for them, they will obtain their education wherever they can find it."

BIG SPECIALS FOR SPECIAL GIFTS

NEW UNION WOMAN'S MEDICAL COLLEGE, SHANGHAI.....	\$166,150
--	-----------

(Successor to Mary Black Hospital and Medical School at Soochow.)
Methodism's Share: Land for Building, \$50,000; Administration Building, \$75,000; Equipment of Administration Building, \$25,000. (Rooms and laboratories may be varied.) Running expenses for five years (\$3,230 a year), \$16,150.

The Woman's Missionary Council is planning to unite with other Woman's Boards working in Central China in the establishment of a Union Women's Medical School and Hospital in Shanghai to take the place of former Mary Black Hospital and Medical School in Soochow.

"There are twenty-six medical colleges in China. Three of these are for women. Fourteen of the twenty-six are missionary institutions, and eleven of these are for men and three for women. The situation is most urgent. As yet the Church has done comparatively nothing for the medical education of the Chinese woman. Now is the opportunity. In a few years it will have passed."

VIRGINIA SCHOOL, HUCHOW	\$46,100
-------------------------------	----------

Community Hall, \$25,000; Library Books, \$500; Typewriter, \$100; 3 Pianos, each \$350; 4 Missionary Teachers, each, per year for five years, \$750; Equipment, Science Department, \$1,200; Equipment, Home Economics, \$500; Equipment, Gymnasium, \$250; 4 Native Teachers, each, per year for five years, \$125.

"Aside from the immense importance of this plan as an evangelistic agency, it will also be a long step toward the desired goal of self-support. The hope of China is in its rising generation. Ninety-seven and a half per cent of the city population of school age is growing up on the streets without education. At the same time, the boys and girls are becoming versed in all that is evil, in all that disintegrates character and undoes a nation's hope of worthy citizens."

SUSAN B. WILSON SCHOOL

MISS LOUISE ROBINSON

McTYLERE SCHOOL, SHANGHAI\$12,000

Allen Memorial Chapel, \$25,000; Faculty Residence, \$12,000; Equipment of School, \$5,000.

"Our one hope is in the training of thousands of competent teachers who shall in their turn build up millions of good citizens on whom the foundation of the nation depends."

VOCATIONAL SCHOOL, HUCHOW DISTRICT.....\$5,000

"The majority of China's millions are poor, and have to work for their living. At an early age—sometimes five years—they are placed in shops, mills, or factories to learn a trade. Their hours are from daylight to midnight, in some cases. They have to sleep in dark rooms, and insanitary conditions surround them. When they reach an age to make a living, they are weaklings, or have developed tuberculosis. Industrial work will afford an unequalled opportunity to help the mass of Chinese people. By teaching a trade to the Chinese, who cannot afford an education, we will find it easy to gain access to their hearts to preach the Gospel."

COMBINATION SPECIALS—WOMAN'S WORK

Christianity can control China's change and supply all the demands, intellectual and spiritual, necessary for the future progress and betterment of the Chinese people.

CUBA

In dealing politically with the Cuban people our nation has shown magnanimity without parallel in the world's history. Precedent would have suggested that when the suffering island had been wrested from the clutches of Spain it should become an American dependency, but the sturdy resistance of Spanish tyranny and the willingness of the Cubans to suffer for their liberty proved they were capable of self-rule. Time has shown that our confidence was not misplaced. Out of confusion has come order, and prosperity reigns throughout the land. Her agricultural resources are unexcelled, and her industrial and commercial possibilities are great.

Great as those events are, what the church of God in America is doing for these people is more enduring. The Methodist Episcopal Church, South, felt she was being led of God to take up work in the new republic, and the great success that has attended the work shows us she has been under His guidance. Much has been accomplished, but we are called on to do more.

CENTENARY PROGRAM—GENERAL WORK WORKERS

MISSIONARIES

Total number asked, 15

Type, location and salary each per year as follows:

Evangelist, 1, Pinar del Rio	\$1,200
Evangelist, 1, Trinidad	1,200
Evangelists, 2, Eastern District, each	1,200
Evangelists, 5, each	1,600
Teachers, 2, Candler College, Puentes Grandes.....	350

Teacher, 1, Santa Clara	350
Teacher, 1, Santiago	400
Teacher, 1, Camaguey	720

*NATIVE WORKERS

Total number asked, 13.

Type, location, and salary each per year as follows:

Evangelists, 2, Pinar del Rio, each	\$395
Evangelist, 1, Cienfuegos	550
Evangelists, 4, Central District, each	450
Teacher, 1, Pinar del Rio (one year only)	100
Teachers, 3, Puentes Grandes, each	175
Teacher, 1, Santa Clara	100
Teacher, 1, Santiago	100

"Latin America needs most of all a great, strong, well-trained native ministry. As yet it has no Luther, no Knox, no Wesley. Some such leader will yet come, and it may be sooner than we think. When he comes, he will come from some of our schools of the prophets, and we cannot make these schools too good."

The Church, School and Parsonage combination is one of the most important projects in the Cuba askings. The one listed for Ciego de Avilla will mean the opening of new work which is needed to connect the Eastern and Central Districts and the breaking of a gap of 159 miles. This is a vigorous, growing city and should be occupied as soon as possible.

Rent, Trinidad (for five years)\$ 2,500
 Publishing House and Depository Budget, Havana..... 12,000
 Annex for School, Pinar del Rio 4,000

"In spite of the many difficulties our work throughout the Island moves forward. The schools have good enrollments, and the congregations show substantial growth. Our churches are developing toward self-support and are already supporting a home missionary by the offerings of the Sunday schools."

BIG SPECIALS FOR SPECIAL GIFTS

CANDLER COLLEGE, PUENTES GRANDES\$73,000

Dormitory, \$25,000; Gymnasium, \$8,000; Infirmary, \$4,000; Girls' Dormitory, \$20,000; Land, \$9,000; Teachers' Residences, \$7,000.

"We were forced to turn away from Candler College for lack of room more young men than we could take this year. For the opening next September we have already filled every bed, desk, and place in our dining room, and have started a waiting list. We need, as soon as possible, another dormitory, with classrooms downstairs. We must also secure soon a small infirmary. Candler College is trying to educate native pastors, Christian teachers, business men and church officers."

CHURCH, SCHOOL AND RESIDENCES, HAVANA\$70,000

"The present quarters of the Cuban congregation in Havana are far from adequate. The meeting place is so small that the children fill it in the daily assembly, the ordinary congregation crowds it, and on an extraordinary occasion there is no room to accommodate the people. The school department is crowded to its utmost capacity, and we have been turning away children since the second week of school. Every foot of space is crowded, and there is NO ROOM FOR GROWTH."

PINSON COLLEGE, CAMAGUEY\$40,000

Land and Equipment, \$10,000; Dormitory, School, Chapel, \$30,000.

"This Institution is doing the best work in its history. It has an enrollment of 125, and the work done is splendid. . . . At present the director's residence serves also as a dining room; the chapel for primary department is crowded into a temporary room; class rooms and study hall are unduly crowded, and even the boys' dormitory is deprived of a sitting room in order that two grades may be housed there. The new buildings are absolute necessities."

"IF THERE IS A NATION ON THE GLOBE THAT NEEDS SALVATION TODAY, IT IS CUBA."

THE IRENE TOLAND SCHOOL, MATANZAS, CUBA

CENTENARY PROGRAM—WOMAN'S WORK

The secluded life which the women in Cuba lead makes difficult the work of reaching them in a helpful way through our schools alone. There is urgent need for social and evangelistic workers who can, as friendly visitors, enter the homes and carry the Gospel message to the women who are living in crowded tenement houses, and who can, also, through social and evangelistic work minister to the spiritual needs of the women and girls who work in the factories in the large cities. We are asking for three such missionaries, to be located, one each in the cities of Havana, Matanzas, and Cienfuegos.

IRENE TOLAND SCHOOL, MATANZAS\$25,200

Building, \$20,000; Remodeling present building, \$2,000; Apparatus
High School, \$350; Automobile, \$1,600; Rent, Day School, \$750; Equip-
ment, Day School, \$500.

"In the city of Matanzas at present the Irene Toland School is the only modern private institution of learning for girls, and yet its capacity limits us to about one hundred in a city of 35,000 inhabitants. The need of a new building is imperative. Little or no advancement is possible until there is more room in which to establish the work. The third item is for sets of Physical and Chemical apparatus and a Museum for the third and fourth years in the High School Department. The first and second years are incorporated with the Government Institute in this city, but the other two years cannot be incorporated until the apparatus has been secured. Should we fail to establish the four years' course, it would result in an irreparable loss to the school. The fourth item is for a school automobile. At present we are using a guagua and mules, which is wholly inadequate to our needs."

ELIZA BOWMAN COLLEGE, CIENFUEGOS\$28,950

Building, \$27,000; Equipment, \$500; Furniture, \$500; Equipment, Day
School, \$200; Rent, Day School, \$750.

"The imperative need of the school in Cienfuegos is an adequate building erected for school purposes and properly equipped. The room we use for morning devotional services comfortably seats less than fifty, and capacity for one hundred is needed immediately. We must have a two-story school building with ample space for an auditorium, a combined library and a reading room, an office for the Principal and at least six large, well-ventilated schoolrooms. We need a dormitory for girls, built as a second story over the four small rooms just back of the garden, the lower story to be remodeled for schoolrooms or domestic science classes. It is impossible to do efficient work under present conditions. Hampered as we are by lack of space and equipment, we are compelled constantly to turn away applicants seeking admission to certain grades."

MAP OF
JAPAN
SHADED PORTION OUR TERRITORY

The gateway of commerce and travel between America and Asia.
Strategic mission field of the world.

Kyoto: Ancient capital. Population, 500,000.

Osaka: Population, 1,460,000.

Kobe: Kwansai Gakuin, Palmore Gakuin, Lambuth Memorial Bible Woman's School. Population, 610,000.

Hiroshima: Hiroshima Girls' School.

The territory covered by our mission has a population of twelve million.

Of the five largest cities of Japan, three are within our boundaries.

DR. J. C. C. NEWTON

MISS NANNIE B. GAINES

BISHOP Y. HONDA

VIEW OF KWANSEI GAKUIN

JAPAN

Christianity is the only religion that appeals to Japanese who know world conditions. Not one in the hundred of the population can be counted Christian. Give them missionaries and raise up native preachers in large numbers, and the evangelization of that great nation is certain.

CENTENARY PROGRAM—GENERAL WORK

Teacher and Preacher combined, Kwansei Gakuin, Kobe.

"On the map" Japan appears almost insignificant; studied from every other point of view, she bulks large. Her early evangelization is one of the urgent duties pressing upon the Church. Happily, this fact is admitted on all hands, and churches that hesitated to press the work fifteen years ago are quick to acknowledge that conditions for successful work are favorable. Within the last decade, leaders in the Church have discovered that more work can be done than simply conserving the work of the past.

The Board of Missions has built many good churches in Japan, some of them before the Methodist Union was accomplished and some since. All these were turned over to the Japan Methodist Church. Our missionaries are largely engaged in evangelistic work. They have but one church, a new building at Tokuyama, in which to hold meetings. All other places of worship are ordinary Japanese houses not at all suited to public worship.

Generally, missionaries go out from comfortable homes. Compelling them to live in insanitary houses endangers health, permanent retirement often being the result. Economy demands that they be properly housed.

MISSIONARY RESIDENCES

"When I consider the 600,000 and more people in Kobe and think how few Christians there are among them, I wonder why anybody with any means, or any church with rich or wealthy members can withhold the small sums of money so necessary to make their missionaries efficient and to send other missionaries that they may help to do a wonderful work for these souls so long without the knowledge of the true God and our wonderful Saviour. There are not 6,000 Christians in the whole city. Less than 1 to the 100."

BIG SPECIALS FOR SPECIAL GIFTS

KWANSEI GAKUIN, KOBE\$505,000

M. E. Church, South's, share: Middle School Building, \$61,250; Commercial School Building, \$19,375; Shrine Land, \$30,000; Convocation Hall and Administration Building, \$10,625; Library Building, \$20,000; Literary College, \$12,500; Land Eastside, \$5,000; Central Section College Building, \$16,250; Endowment, \$300,000.

The marvelous growth of Kwansai Gakuin in recent years entitles it to occupy the first rank among Mission Schools in Japan. Developed as the Missionary Centenary contemplates, it will rank with the best in any land. This institution was founded in 1889 by Bishop W. R. Lambuth, who was then the Superintendent of our Japan Mission. Starting with only nine theological and seventeen academic students, in a small cheaply built school-house, the second story being used as a dormitory, for many years it was a small mission school. However, deep foundations were being laid and a strong spirit, with characteristics all its own, was developed. In 1910 the Methodist Church of Canada united with the Methodist Episcopal Church, South, by taking joint interest, ownership, maintenance and control. It is now a union Methodist institution for Japanese young men, with an enrollment of over 2,000.

HIROSHIMA GIRLS' SCHOOL, HIROSHIMA\$145,000

Land and building readjustments, \$45,000; Endowment, \$100,000.

"This school has just passed its thirtieth anniversary. It is the largest Mission Girls' School in Japan, with an enrollment of 937. Thirty years ago there was no provision for the education of girls beyond the eighth grade except a limited number in normal schools. Very few went beyond the fourth year primary. Today there are high schools in every part of the Empire. The daughters of every rank of society enter these schools. In our Mission School we no longer have only the official class, but touch every class of society. Through the six kindergartens we reach out to every part of the city. The Primary Department is a very important part. The limit of this is our ability to provide for all who wish to come. The calls for kindergartners are urgent, but the supply does not meet the demand. All missions have recognized the kindergarten as one of the most effective ways into the homes, and thence to direct evangelization. All have not yet learned that the work of the

REV. W. R. WEAKLEY

"O, the untouched villages in Japan! There they lie in heathen darkness, hundreds of them, not knowing the unspeakable grace of God in Jesus Christ; and the factories, with their half million women employes, only barely touched of Him who came with life abundant for all; and those awful abodes of sin, the licensed quarters of Japan, where the devil holds undisputed sway, while the Church of the living God seems powerless to break down those mighty walls of Jericho and set free many women who are not there of their own choice, but have been sold into that life to pay family debts; and then that other great number, the women with homes where no want is known except that awful want, peace—peace, which their poor hungry hearts so ardently long for, although they dwell behind lofty gates and are surrounded by every comfort that wealth can give. There are the doors that await the entrance of those young women of our Church who are looking for a life work that will satisfy the heart and will stand the test of that great day when we shall stand to be judged at the judgment seat of Jesus Christ."

WOMAN'S EVANGELISTIC PLANTS

Japan is a land of cities. The Woman's Missionary Council is proposing through the Centenary to build and equip evangelistic plants to serve as centers for work with women and girls in each of thirteen large cities. It means the launching of a city mission program for Japan. These cities are teeming with women and girls who are at work in great factories, and with young women who are students in government schools. Each of these plants will be a social evangelistic center somewhat like our Wesley Houses in this country.

Osaka is one of the oldest cities in the world and is the second city in size in Japan in population, as well as the first in rank in commercial importance. It is now nearing the two million mark, and the present rate of growth is far ahead of that at any time in the past. Osaka, with Kobe, will dominate in commerce and industry, and furnish together the *greatest challenge for educational and evangelistic work* of the most aggressive type on the part of the Southern Methodist Church in co-operation with the Japan Methodist Church.

EVANGELISTIC PLANT, BEPPU\$21,565

Workers' and Missionaries' Home	4,000
Land for Institutional Plant	8,000
Two Missionary Evangelists, support for five years (\$830 each)	8,300
Personal Helper, support for five years.....	690

"Beppu is the great Hot Springs of Kyushu. Its settled population is 22,000. But 1,000,000 visitors from all over the Empire come to this place annually. It is a city of hotels. The moral and social conditions are second to none in the Empire. Vice walks the street naked and unashamed. No better evangelistic opportunity can be found anywhere."

SCHOOL, MISSION HOME AND DORMITORY, LAMBUTH MEM-
ORIAL BIBLE WOMAN'S TRAINING SCHOOL, KOBE.....\$18,000

This school was founded in 1900 by Mrs. J. W. Lambuth. In 1905 Miss Maud Bonnell became principal. In her hands it developed until now it is the most important factor in the Council's evangelistic work. The territory from which it draws is mainly Kobe District, Hiroshima District and Matsuyama District, the parts in which our Church work is located comprising about 12,000,000 people. The land for the new plant has been provided. With the establishment of the plant we hope to train an increasing number of young women to carry forward this very important work.

REV. R. A. HARDIE

OUTSIDE THE WEST GATE, SEOUL, KOREA

KOREA

One of the most inspiring chapters in the history of Missions is that which tells of what God has done for Korea. There we see a great church in the making, and on our side of the great ocean that separates us we see the church backing every enterprise that will bring the work into full fruition. Let us not deceive ourselves into believing the work is done. It is estimated that not more than one in 119 can be counted Christian.

CENTENARY PROGRAM—GENERAL WORK WORKERS

"If there is to be an advance—an ingathering of multitudes of believers—the ranks of the missionaries must be recruited not only to the point of adequately manning all of our institutions and taking care of all of the work now in hand, but there must be enough to go out as pioneers. This is our first and greatest need, the one which must be met before there can be any hope of realizing the other items of our program."

MISSIONARIES

 *Physician, Chulwon District.
 *Physician, Ivey Hospital, Songdo.
 Superintendent of Institutional Church Work, Seoul District.
 *Superintendents, Sunday School Work, Seoul District.

"The population of the territory in which we are working in Korea is about 1,300,000. The Christians number but little over 10,000. Out of every 130 only one is Christian. Our objective is to reach the lost 129. We are planning to carry the Gospel to every man, woman and child. We wish to present it in such a clear, plain, direct and forcible way that everyone will be given not only a chance, but a good chance of accepting Christ as his Savior. The foreign missionary cannot go personally everywhere, but he can plan the work, and send the native helpers when he cannot go himself. The parsonages are for the native evangelists. It is our purpose to place them as far as possible away from present centers so that the evangelists may be able to gather together new groups of people in the unevangelized sections."

NEW CHURCHES AND CHURCH IMPROVEMENTS

In the absence of churches the missionary uses a tent and sometimes the market places and even private residences. The report comes back, "Everywhere we went there were crowds to hear us. At some places we could not accommodate all, so the sides of the tent had to be let down. Thousands of people were reached. Hundreds of Gospels were sold and practically every house in each neighborhood received a tract and a kind word of invitation." Such testimony as this clearly convinces one of the need of an abiding church home for these multitudes so eager to hear.

EDUCATIONAL WORK

"The purpose of maintaining schools in mission fields is fourfold: 1. To give an adequate education to children of non-Christian countries where schools are usually fewer than needed. 2. To create an opportunity to preach the Gospel to young people and also to their parents who may not be reached otherwise. 3. To train an efficient leadership for the native church. 4. To educate the future leaders of the country with the regular education plus Christian principles and influence. The first is of charity; the second is of duty; the third is of necessity; and the fourth is of policy."

MEDICAL WORK

"One hundred years ago there was not one hospital or trained physician in the non-Christian world; today there are 675 hospitals; and eight million treatments in these hospitals were reported in a single year. The relief of suffering, the prevention and cure of contagious diseases, the successful war against plague, asylums for the insane and blind, for the deaf, homes for lepers and consumptives, rescue homes, prison work, famine relief—all these are recent forms of Christian service and are rapidly extending."

MISCELLANEOUS

"One of the greatest needs of the Church in Korea is a Christian Literature. This need must be met not for the sake of the preachers and Christian workers alone, but for the educated non-Christians who are rapidly increasing in number and who can be more effectively reached through this means than by any other. It is poor policy to spend time and effort and money in preparing men to do an important work, and then send them forth without the equipment necessary for their own sustenance and the prosecution of the work they have been trained to do. 'Korea has a far greater number of Christians in proportion to the population than any other country in the Far East,' and yet the variety and range of Christian Literature is much smaller in Korea than in India, China or Japan."

"This is the only Christian school of its grade in the solid block of territory in central Korea containing over a million and a quarter of inhabitants which has been assigned exclusively to our Church. It has an enrollment of 542. Its graduates receive highest honors in Government examination. It has the confidence of all classes. Industrial training that will enable Korean Christians to better their economic conditions is recognized universally among the missionaries as one of the greatest needs of Korea, especially so when this provides a way for worthy but poor students to help themselves through school. Recently 35 students walked in from the country only to be turned down and sent away discouraged because our equipment was so small we could take but 60 students in the self-help department. With adequate equipment we will be able to increase the 60 to several hundred."

A NATIVE PREACHER

A WATER CARRIER

REV. O. C. MINGLEDORFF

INSTITUTIONAL WORK\$37,850

Superintendent, Seoul District, salary for five years, \$6,000; Plant, Suk Kyo Church, \$1,500; Plant (and land), Water Mark Church, \$2,000; Building, equipment (and land), Central Institutional Plant, Songdo, \$6,000; Building (and land), East Wonsan, \$3,000; Plant (and land), Chong Kyo Church, \$1,600; Equipment, Cha Kyo Church Plant, \$1,450; Equipment, Water Gate Plant, \$1,150; Running Expenses, Chong Kyo Plant, \$1,400; Suk Kyo Plant, \$1,400; Suk Kyo Plant, \$750; Central Institutional Plant, \$1,000; Choong Ni Plant (maintenance), \$700; East Wonsan Plant, \$1,600; Running Expenses Cha Kyo Church, Seoul, \$1,000; Running Expenses, Water Gate Church, Seoul, \$1,000.

In the five stations of our Korean Mission we have a city population for whom we are entirely responsible of over 100,000. Of these not more than 2,000 are Christians. A more persistent, continued and telling attack must be made upon the non-Christian population. How is it to be done? If the home church will provide the institutional plants and their equipment, the missionary will open reading rooms, night schools for working boys, recreation rooms, baths, a religious book store, etc., which will render a practical social service that will attract non-Christian men. Such an opportunity is worth every dollar invested.

COMBINATION SPECIALS

CENTENARY PROGRAM—WOMAN'S WORK

"Caring for the sheep already in the fold and seeking the other sheep outside the fold are the two forms of church work absolutely necessary for the normal growth of the Church. To correct the one-sided condition of placing all the stress on teaching the Christians we have already taken some measures for beginning an aggressive evangelistic campaign which, if conducted properly, will require a larger force of both foreign and native workers."

MRS. JOSEPHINE CAMPBELL

NATIVE BIBLE WOMAN

MISS HORTENSE TINSLEY

"God has been working at both ends of the line. He has given us a vision of the needs of direct evangelistic work among the non-Christians and our inability to do it because of the lack of workers. During the next five or ten years our aim is to direct our efforts primarily toward reaching the mass of the unevangelized. Comparing the ten thousand Christians of our Mission with the 1,252,841 non-Christians in our territory, you will readily see that the present force is far too small to cope with the situation."

SCHOOLS

BUILDINGS, MAINTENANCE, EQUIPMENT

"The value of our schools to the missionary enterprise is unquestioned. They save to the Church the children of Christian homes, they bring the missionary and native helper into effective contact with many who would otherwise be difficult to reach, they provide an opportunity for intense consecutive work which is so desirable in establishing the faith of those who are without Christian traditions or heredity, they exercise a salutary influence upon the non-Christian schools, and they are indispensable in the work of training Christian leaders for the future."

BIG SPECIALS FOR SPECIAL GIFTS

CAROLINA INSTITUTE, SEOUL\$30,775

Land for Religious Work Building, \$2,000; Religious Work Building, \$7,500; Dormitory and Equipment, \$1,750; Playground, \$2,000; Piano and Organ, \$1,000; Running Expenses, \$5,750; Building Road, \$1,500; Library Fund, \$175; Salaries, \$6,100; Primary Building and Equipment, \$3,000.

"We are feeling the need of better trained workers. Younger women are going to take the place of the faithful old Bible women of the present. We must have them to meet and cope with the problem of the Government School graduates. Large numbers of these young women, who for the most part have no religion at all, are being graduated every year from the schools in Seoul. Where are these trained workers to come from? They must be trained in our Mission Schools, and we must hear the trumpet call to enlarge and improve our present plants and provide a sufficient number of teachers to meet the crisis that will surely be upon us in the very near future."

EVANGELISTIC PLANT, SONGDO\$17,500

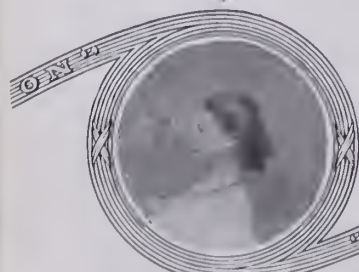

Land for Building, \$2,000; Building, \$10,000; Heat and Light, \$2,000; Running Expenses, \$3,500.

"The great mass for which we are responsible, the complexity of the situation, the period through which we are passing, demand an enlargement of the evangelistic work of the city—more workers and better facilities, more concentrated efforts. To take advantage of the opportunities now open to us we are asking for Institutional Plants in each of our stations, providing rooms for Bible classes, kindergarten, day nurseries, reading rooms, and other forms of work suitable to conditions existing in various centers."

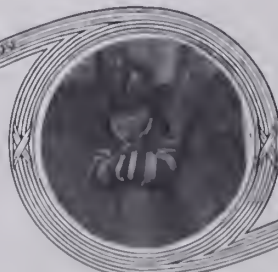

FRANCIS HITCH PRIMARY SCHOOL, WONSAN EAST.....\$15,560

Religious Work Building, \$5,000; Equipment, \$2,200; Running Expenses, \$8,360.

"There is no educational worker in Korea today who is here for the purpose of giving education alone. Our reasons for coming were that we might exemplify the Christ and lift Him up before the people that He might draw hundreds who sit in heathen darkness unto Himself. Surpassed only by the influence of the mother over the child is the influence of the teacher for good. Granting that all the schools for which we long were ours, it is not the attendance upon a Mission School that saves a child, but through the influence of the Christian School coming into vital relationship with Jesus Christ."

A COUNTRY CHURCH

CHONG KYO SUNDAY SCHOOL

MISS ALICE COBB

THE RAINBOW CHRISTMAS TREE

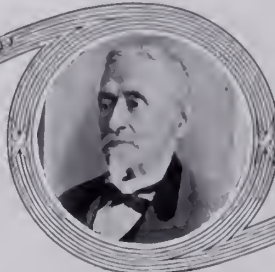

MAP OF MEXICO

Underscored cities indicate where our mission worked prior to division of territory.
Shaded portion our territory under action of General Conference at Atlanta.

REV. J. F. CORBIN

FIRST MEXICAN CONVERT

REV. J. H. FITZGERALD

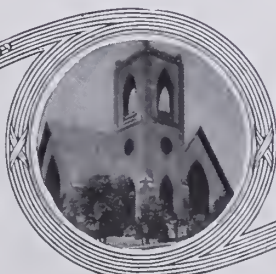

PLAZA LERDO, MEXICO CITY

MEXICO

Mexico, our neighbor, whose territory stretches from our southern border almost to our possessions on the Isthmus of Panama, is one of our most important Mission Fields. For her evangelization no church has a greater responsibility than has the Methodist Episcopal Church, South. The chaos occasioned by the revolutions which raged throughout the Republic for years has in many places utterly destroyed the work and in all places hindered it, but order is being restored and re-entering the field need not be delayed longer. While the revolution caused disappointment and anxiety, it was not an unmixed evil. Many abuses have been swept away, as the following statement by one on the field will show: "While there remain, especially among the women, many devout Catholics, there has been a great falling away from Roman Catholicism during the past six or seven years. Romanism's attitude toward political affairs has stirred up a great deal of antagonism on the part of political leaders. The attitude of the Government toward us is quite favorable. Protestant teachers are employed in Government schools with preference. The Government usually looks upon Protestants as those that can be depended upon."

REV. J. B. COX

MACDONELL MEMORIAL CHURCH

REV. LAURENCE REYNOLDS

CENTENARY PROGRAM—GENERAL WORK

WORKERS

For the reopening and extension of the work in Mexico sixteen men and thirteen women missionaries are needed. The news comes that the Churches are filled to overflowing, many giving themselves to the Lord and receiving baptism. Equally urgent is the rebuilding of churches destroyed in the onrush of revolution, and erecting new ones in strategic places. In the nation's capital and surrounding country, in the past two years, unusual success in selling Bibles and portions has attended the work of the American Bible Society. Church members did all they could to aid this work. Much good was accomplished by this, and a more diligent study of the Word and an increased attendance on the church services has been the outcome.

CHURCHES AND PARSONAGES

"Through the Missionary Centenary we appeal to the whole Church to come to the help of Mexico. We ask the Church to make a careful study of the conditions of a religiously starved people and then give herself to God in prayer for Mexico's redemption in this generation. We appeal to the Church to give as she has never yet given toward the moral and spiritual uplift of fifteen millions of people who know not God."

EDUCATIONAL AND MEDICAL WORK

Plans for developing the Educational work on a large scale come to us from Mexico. Sixty per cent of the people are illiterate. It is a well-known fact, however, that nearly all Protestant Christians can read and write, which fact greatly strengthens the claim that the services of a large number of missionaries must be secured for Educational Work. A strong appeal is made for the building of a school in the City of Mexico. Along the border and even among the Mexicans on the Pacific Coast the work must be pushed. It is urged that Industrial and Normal Schools be established, that the Protestants may be fitted to become leaders in State and society.

In addition to this work, two new hospitals should be established—one at Torreon and one at Chihuahua. One dispensary should be opened at Durango.

For the work already in hand the services of two doctors and two nurses are required.

REV. JOSEPH THACKER

HOSPITAL, MONTERREY

MISS NORA E. DARWIN

BIG SPECIALS FOR SPECIAL GIFTS

HOSPITAL, CHIHUAHUA CITY\$40,000

Building, \$32,000; Equipment for Hospital, \$8,000.

The people in the rural districts, especially, are in great need of medical practitioners, dispensaries, and nurses.

EFFIE EDINGTON INSTITUTE, EL PASO\$30,000

Building and Equipment, \$25,000; Land, \$5,000.

The workers who are to carry the Gospel to the people must be prepared for this high calling, and two or three schools to meet the demand must be opened. In many of the centers Institutional Plants must be established. It is also a part of the plan to patronize and help maintain the Union Theological Seminary, a joint Publishing House and an Evangelical paper.

LAURENS INSTITUTE, MONTERREY\$45,500

New Building, \$30,000; Athletic Field, \$5,000; Repairs, \$500; Running Expenses, five years, \$10,000.

A number of the strong Christian men who are taking part today in the Government of Mexico are former pupils of Laurens Institute, and their influence is being felt throughout the whole Republic. We should grant this Institution the funds which it needs for enlargement and equipment in order that it may offer to the youth of Mexico the training that they need and prepare them for service for future leadership in our Church and in the nation.

Teachers, 3, Colegio Ingles and Girls' Normal School, Saltillo, each	340

EDUCATIONAL AND SETTLEMENT WORK

Definite plans for the following Schools have been formulated: The capacity of the Normal School for Girls shall be doubled, a Bible Training School for Women opened, the efficiency of the El Paso and Monterrey Schools increased, and new schools established at once at Chihuahua, Torreon, Durango and Nogales. In addition, at least three new schools for girls should be opened. When these wisely laid plans shall have been carried out, the Church will be better prepared to undertake the great work before her as she takes part in the rehabilitation of Mexico.

BUILDINGS

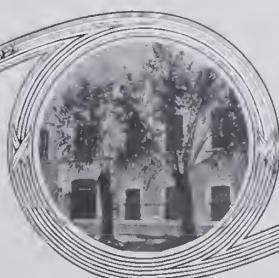

Settlement Building, Chihuahua	\$20,000
Settlement Building, Torreon	6,000

METHODIST NORMAL SCHOOL, SALTILLO\$79,900

(Formerly Colegio Ingles.)

Building	\$70,000
Equipment	6,000
Running Expenses (five years)	3,900

More than 7,000 pupils have passed through this Institution, and graduates from the Normal Department are teaching in many of the different States of Mexico in both Mission and Government schools. At present the work is being carried on in a building wholly inadequate for the purpose. The Governor of the State of Coahuila, who was a pupil of the school when a small child, estimates the work of this Institution so highly that he has expressed his desire to aid in the construction of a new building by securing materials in Mexico at a cheaper rate than they could be bought without his influence, and by obtaining permission from the Federal Authorities to allow materials for the building to be brought from the United States without duty. Graduates from this school taking examination in the State Normal School are granted a State certificate. No young woman graduate has yet failed to obtain a State diploma.

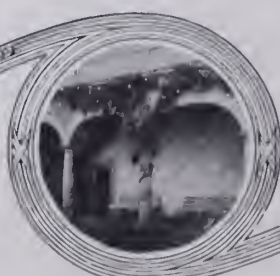

SOCIAL SETTLEMENT, CHIHUAHUA\$33,610

Building	\$20,000
Equipment	4,000
Running Expenses (five years)	9,610

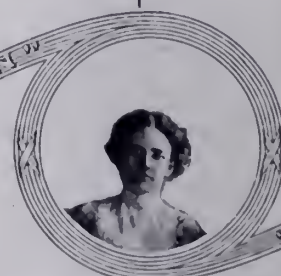

There is a great field in Mexico for work of this kind, by means of which people can be reached who would not attend an evangelical service. They must first become familiar with the principles of Christianity by contact with Christian workers in everyday life.

MISS VIRGINIA BOOTH

CORRIDORS, PALMORE

MISS ETHEL MCCAUGHAN

COLEGIO PALMORE, CHIHUAHUA	\$82,180
Administration Building	\$60,000
Equipment	7,180
Running Expenses (five years)	15,000

A large number of the members of our Church in Chihuahua, who are making it a self-supporting congregation, are former pupils of Colegio Palmore. The fine young business men and women who are alumnae of the Institute are making their influence felt, not only throughout the State and city of Chihuahua, but in other parts of Mexico as well. In order to increase the efficiency of the school we are asking for an Administration Building.

SOCIAL SETTLEMENT, TORREON	\$21,250
Land	\$5,000
Settlement Building	6,000
Day Nursery Building	2,250
Equipment	6,000
Running Expenses (five years)	2,000

Torreón is comparatively a new town, and is an important railroad and commercial center, which should be one of our best manned and equipped mission stations in the territory for which our Church is primarily responsible in Mexico.

COMBINATION SPECIALS

Never before have Mexican doors been so wide open for the entrance of Evangelical Christianity. Many of the leaders in the present Mexican Government are Protestants, some of whom are the products of the educational institutions of Southern Methodism. "Mexico today is governed by men from the section of Mexico, for the evangelization of which the Methodist Episcopal Church, South, is primarily responsible."

HOME MISSIONS

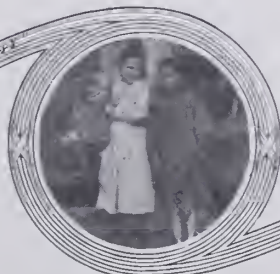

CENTENARY PROGRAM—GENERAL WORK

CHRISTIANIZATION OF FOREIGNERS

To Americanize and Christianize the millions of foreigners in the United States is the largest, the most urgent and the most fleeting opportunity before the American people. By common consent we should drop the word "Foreigner" and call them "Allies." The major part of their people in the old country were our allies, and the young men of these races in our country fought side by side with our own boys in khaki. Our Church is helping to Americanize and Christianize Italians, French, Cubans, Bohemians, Mexicans, Japanese and Koreans. This is the time of times to assume the support of a home missionary, and to become definitely and worthily linked up with giving the Gospel to the man who is to go back sooner or later heathen or Christian.

REV. J. D. LEWIS

Assistant, Bryan, Texas	600
G. V. Romano, New Orleans, Louisiana	1,440
*FOUR MINISTERIAL SCHOLARSHIPS, Italian Students, each	100

"Do not become discouraged, for you are building better than you know. Every Italian returning to his native land from America is a Protestant, converted through a touch with your atmosphere and institutions. When we go into a new community, we first inquire for some man who has been to America. With scarcely an exception we are able to establish a Sunday school and Church in his home. These men are the pillars of Protestantism all over Italy. The best missionary work we could do would be to send the people to America and then bring them back again."—A statement of a leading Protestant clergyman of Rome to one of the Centenary Secretaries, recently returned from the European front.

PREACHERS TO CUBANS AND ITALIANS IN THE LATIN DISTRICT

One Church for Italians, New Orleans	20,000

INDIAN AND MOUNTAIN WORK

A wag said that the Pilgrim Fathers, on arriving in America, first fell upon their knees and then forthwith fell upon the Aborigines. This is not true. The praying people have ministered to the Indians in the name of the Lord Jesus. Other people, who do not pray, have exploited the Indians. Christians have prayed for the Indians, while some of the un-Christian elements have preyed upon them. The undivided Methodist Church began work among the Indians in 1822. In 1844, when the Methodist Church was divided, by common consent, the Indian work among the Five Civilized Tribes fell to the Methodist Episcopal Church, South. Since that time our Board of Missions has contributed to the Indian work more than a million dollars. We are now maintaining one general superintendent and two district superintendents and are helping to sustain a large number of Indian pastors.

NEGRO WORK AND MISCELLANEOUS

Our Church believes that we can best serve the Negro by helping him in his Church. As is well known, our Church organized our colored membership into a separate Church in 1870. The Colored Methodist Episcopal Church has made great progress. We have always maintained an advisory and helpful relationship. They need most help in educational matters. As is well known, our Church maintains for them Paine College. The Board of Education also helps in the maintenance of Lane College. The Epworth League will make a Centenary offering of one hundred thousand dollars for buildings for Paine College.

SUPPLEMENTARY SALARIES OF PRESIDENTS OF COLLEGES OF C. M. E. CHURCH

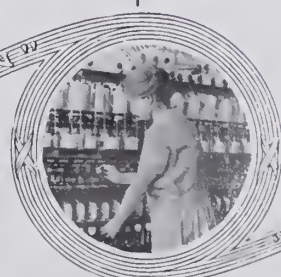

C. M. E. College, Boley, Oklahoma, per year \$500

COTTON MILLS

Textile Industrial Institute, Spartanburg, S. C.	
Equipment	\$150,000

MINERS\$250,000

There is an ever-increasing mining population in seven or eight States. We shall need at least fifty thousand dollars per year for work among the miners for the next five years.

THE CITY

Plans are being evolved for trying out a proposed plan for the city. Methodism must learn how to deliver itself upon a great city. One large city will be chosen and the plan tried out thoroughly. Some one city ought to welcome this experiment.

CHRISTIAN LITERATURE\$100,000

We are asking for twenty thousand dollars per year for five years for publishing tracts, pamphlets, and booklets on Christian doctrine as taught by Methodism.

BIG SPECIALS FOR SPECIAL GIFTS

Paine College, Augusta, Ga.	\$250,000
Endowment, \$150,000; Boys' Dormitory, \$50,000; Auditorium, \$20,000; Library, \$10,000; Gymnasium, \$10,000; Industrial Building, \$10,000.	

REV. WM. ACTON

MRS. WM. ACTON

MARY HELM HALL

"I cannot stress too strongly the importance of concentrating on Paine College to make it an institution second to none of its kind in the nation. I am sure you will not forget that this is the only Negro school actually owned and controlled by the Methodist Episcopal Church, South. Obviously it will be wise to place one-half of our Negro work funds where our Church is in direct control. We are steadily increasing the fees for tuition and board until the students will pay a fair share of our running expenses. In the present school year our students will pay into the college treasury nearly \$5,000 more than last year. The increased appropriations we are asking are not for current expenses at all, but for permanent enlargement." (Extract from letter of Albert D. Betts, President of Paine College.)

EFFICIENCY SUPERINTENDENTS, MOUNTAIN WORK (Annually) \$15,000.

The following Districts require such Superintendents for the Mountain Work: Eastern Kentucky, Eastern Tennessee, Western North Carolina, Southwestern Virginia, Northwestern Georgia, and Northwestern Arkansas.

The purest and richest Anglo-Saxon blood to be found in the world is in the mountains of the South. While many thousands remain much as they were one hundred years ago, some have been brought under the influence of modern movements and have shown an ability and susceptibility not found among young people from the lowlands or the city. Conference boards are doing much for them. The Board of Missions is helping some. It is desired to place an Efficiency Superintendent in each Mountain District, who shall increase the efficiency of the work already being done and map out new fields to be occupied.

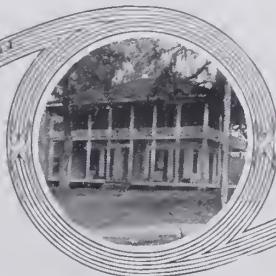

METHODIST MEXICAN INSTITUTE, SAN ANTONIO, TEXAS...\$15,000

Ministerial Scholarships, 6, per year, \$600; Salaries of Teachers, per year, \$2,400; for five years, \$12,000.

"To make our school an educational institution well above the average, with teachers thoroughly equipped for our kind of work, to train our Texas-Mexican pupils so that they shall be first-class American citizens, at the same time cultivating a spirit of Christian brotherhood between the peoples of Mexico and this Republic. To assure the final success of our missionary work among Texas-Mexicans by preparing a group of enthusiastic workers for the ministry and teaching profession; also, a constituency of laymen who will gladly serve the Church in all possible ways. To give most of the instruction in the English language, with the regular public free school courses from the first to the eleventh grades, inclusive, as our model. To put the school on a self-sustaining basis as early as possible." (Annual report of the President of the Mexican Methodist Institute.)

MRS. J. M. SKINNER

WESLEY HOUSE, BILOXI, MISS.

DEACONESS MATTIE WRIGHT

VIRGINIA K. JOHNSON HOME

HOME MISSIONS

CENTENARY PROGRAM—WOMAN'S WORK

LATIN-AMERICANS AND ORIENTALS

More than 1,000,000 Mexicans and many Cubans now live within our borders, and these, for the most part, are wretchedly poor, illiterate, unskilled, full of prejudice, and inclined to atheism. To leave them in their present condition is a menace to society. We already have at Holding Institute, Laredo, Texas, 376 students and a teaching force of 15. The Homer Toberman Clinic and Wesley House, Los Angeles, California, ministers to 7,000 people, and Wolff Settlement, Tampa, Florida, serves 12,000 Cubans. We propose to erect a Girls' Dormitory, remodel the Boys' Dormitory, and provide a large Administration Building for Holding Institute, build a Wesley House at Tampa, Florida, with playground equipment, day nursery attachment, clinic, kindergarten, social club, and class room. Buildings to suit the demands of the work at Los Angeles and Key West must be erected.

LATIN-AMERICANS, \$181,000

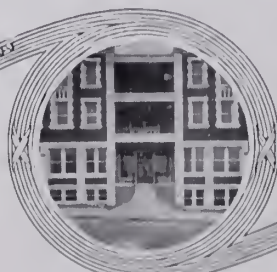

HOLDING INSTITUTE, LAREDO, TEXAS\$86,000

Administration Building, \$40,000; Girls' Dormitory, \$20,000; Boys' Dormitory, \$10,000; Increased Working Force, 6, \$16,000.

This Institution has served as an educational center for Mexicans on the border since 1882. The buildings are wholly inadequate and the furnishings no credit to the Church. Last year it turned away two hundred for lack of dormitory capacity.

MISS FLORENCE WHITESIDE

MARY ELIZABETH INN

MISS MAY ORA DURHAM

SAN ANTONIO, TEXAS, WESLEY HOUSE\$15,000

Gymnasium, \$2,000; Clinic, \$8,000; Laundry, \$5,000.

This Wesley House is located in a community of 40,000 Mexicans. The homes of the people are small. Most of them take in washing, and with no place for drying the clothes and ironing them save in their living rooms. It can be easily seen how demoralizing to family comfort and order the presence of wet clothes and almost constant ironing is in the cabin home.

NOGALES, ARIZONA (MEXICANS)\$25,000

New School Building, \$25,000.

It is difficult to rent or purchase a building typed for a school. A suitable building must be erected as soon as possible for this new enterprise.

HOMER TOBERMAN CLINIC AND SETTLEMENT, LOS ANGELES,
CALIFORNIA.....\$35,000

Building and Clinic, \$35,000.

The Clinic and Settlement now occupy two small buildings on rented ground. The purchase of lot and the erection of a new building are imperative. This building must serve the Clinic, which is large; it must also serve the congregation, residences for the workers and space for clubs and classes. A wide and effectual door awaits the minister.

WEST TAMPA, FLORIDA (CUBANS)\$10,000

Wesley House, \$10,000.

This is a pressing need. The Wesley House furnishes a day nursery, kindergarten, gymnasium and clinic for nine thousand Cubans.

YBOR CITY, TAMPA, FLORIDA\$10,000

Wolf Mission, Day Nursery, \$10,000.

This Settlement must have a Day Nursery. The Clinic must have enlargement. Provision must be made for a milk station and other welfare work. A day nursery is a demand for any evangelistic institution among the Cubans. Getting the children under evangelistic touch means holding them and their families for future development.

ORIENTALS, \$33,000

Building, Oakland, California (Japanese), \$10,000; Building, Dinuba, California, \$8,000; Building (land included), San Francisco, California (Koreans), \$15,000.

We conduct a large Japanese and Korean work on the Pacific Coast. We own but one piece of property, and the development of the work at that place far exceeds in efficiency that at other points. A building must be erected to serve as Church and Social Center at Oakland. For the same reason a build-

DEACONESS MARY HASLER

BREVARD INSTITUTE

MISS DAISY RITTER

ing must be erected at Dinuba. The Korean Church and Mission in San Francisco is forced to occupy rented property which may be taken from us at any time. This Church is the largest organization for Koreans in America.

The importance of Oriental Missions in the United States cannot be overestimated. We want to give the foreigner the best we have in our civilization. Christianity is our best, and the Chinese or Japanese will be a force for good in his new home if he can only embody in his life the Christ life.

Ten thousand of the 130,000 Japanese are to be evangelized by our Church or live among us as pagans. It is for us to choose. Twelve hundred Koreans have also been allotted to us. This work is now being carried on vigorously and successfully. Five Japanese and Korean preachers and six other trained workers make up our working force. Our work for the Japanese at Alameda is carried on in Mary Helm Hall. The Japanese themselves have erected a Mission in the Sacramento River Circuit which is served by a Japanese pastor. In the city of San Francisco a commodious hall is rented for the Koreans, called by them the Korean Center of North America. Already we have an Oriental membership of 250. We propose to purchase a building at Oakland adequate for church, school, and social work and furnish rooms which may be rented to transient Japanese, and establish a church, educational, and social center at Dinuba.

GULF COAST, MOUNTAINS AND MINES

Along the Gulf Coast we have the foreign problem on our hands. The French element and the newer Italian element must come under evangelical influence, otherwise our own work in that region is sure to be hindered. A Wesley House at Biloxi, and St. Mark's Hall, Esplanade Street, New Orleans, are in charge of trained workers, and great good is being accomplished. At Houma there are two trained workers conducting clubs and classes among the scattered French people as the beginning of a larger work, and a port missionary as the representative of the Church of God stands at Port Galveston to help the immigrants in their hour of need as they reach our shores. We propose to erect a church and gymnasium for the fishermen at Biloxi; purchase property and erect a suitable building for the enlarged work at St. Mark's Hall, New Orleans; provide a Gospel Center for rescue work and service for the "down-and-out" in the congested sections of New Orleans; begin educational work for the girls of the French people of Louisiana, and make permanent the immigration work of Galveston.

GULF COAST, \$82,500

WESLEY HOUSE, BILOXI, MISSISSIPPI\$12,500

Moving Church, \$500; Gymnasium, \$2,000; Extension on Gulf Coast, \$10,000.

A gymnasium, kindergarten room and enlargement of the Day Nursery are needed for the present work. A Clinic must be added. The foreign-born people who settle in this community are extremely poor, know little of sanitation and need physical as well as spiritual help.

DEACONESS ELLEN CLOUD

MINERS' HOMES

MISS BESSIE ALLEN

ST. MARK'S HALL, NEW ORLEANS, LOUISIANA\$70,000

Modern Building, \$58,000; Increased Force, 3, \$2,000; French Work; the opening of two new Settlements, each, \$5,000—\$10,000.

Without doubt the biggest and the greatest demand of the Centenary in the homeland is equipment for a large Protestant enterprise at New Orleans. A building to furnish residence for trained workers, space for clubs and classes, clinic, laundry and an auditorium for church purposes, which will present a Protestant work that will commend itself as scientific and religious, is the demand for this great coast city. Trained men and women of deep religious lives are needed, who are willing to bury themselves in institutional work.

MOUNTAIN AND MINE WORK, \$158,500

BREVARD INSTITUTE, BREVARD, NORTH CAROLINA.....\$73,500

Girls' Dormitory, \$10,000; Boys' Dormitory, \$30,000; Increased Faculty, 2, \$2,000; Repairs on Institute, \$1,500.

If an institution is granted financial aid commensurate with results of the work, Brevard Institute should have all that she is asking for.

SUE BENNETT MEMORIAL SCHOOL, LONDON, KENTUCKY.....\$75,000

Chapel, Gymnasium and Library (High School), \$40,000; Addition to Boys' Dormitory, \$20,000; Farm, \$5,000; Laundry, \$10,000.

This splendid school, with its magnificent record of service, needs a chapel, gymnasium, library and an addition to the boys' dormitory. It must have a laundry. Think of a school of four hundred students without a laundry and a chapel!

WESLEY HOUSES AT MINES (NEW WORK)\$16,000

Two excellent schools, well equipped, and satisfying the demands made on them, are well supported by this Department.

The Sue Bennett Memorial School, London, Kentucky, has valuable property, 408 students in attendance and a faculty of seventeen teachers.

Brevard Institute, Brevard, North Carolina, has high standards, 271 students and 14 teachers. A high-school building, chapel, and boys' dormitory are to be erected at the former school and a boys' dormitory at the latter.

Two Wesley Houses have been established in mining districts and successfully used. Eight Deaconesses have been engaged in different mining sections and the number is to be doubled.

CITY WORK AND DEACONESS TRAINING

The Home Department of the Woman's Missionary Council, co-operating with thirty-six City Mission Boards, have seven co-operative homes for young working women and forty Wesley Houses or other social institutions in foreign, negro, cotton mill, and other English-speaking industrial sections. Last

MISS BERTIE ELLISON

MOTHER SAWYER

MISS MATTIE WIKE

year ninety-two Deaconesses personally reached 23,200 homes. The Wesley Houses served 208 industrial classes, 19 night schools, and 265 clubs that give education, manual training, and the teaching of English to foreigners. Our accommodations are inadequate, for in one city alone 750 young women were turned away for lack of room. We have definite plans to increase the number of Deaconesses and Missionaries to meet the demands of the vast home mission field, to provide Methodist dormitories at State schools and universities, to build a hospital for the special training of Christian nurses for district service, to provide scholarships for language study for those who serve in foreign communities, and to increase the number of Co-operative Homes.

CITY WORK	\$442,000
Methodist Dormitories at State Universities and Colleges.....	\$200,000
Scholarships for Foreign Study	12,000
Wesley Houses and Co-operative Homes	130,000
Wesley House, St. Joseph, Mo.	\$25,000
Wesley House, Louisville, Ky.	20,000
Methodist Institute, Richmond, Va.	50,000
Wesley House, Fort Worth, Texas	5,000
Wesley House, San Francisco, Calif.	30,000

There are more Methodist young women in the State Colleges and Universities than are listed in our Methodist Schools. Religious instruction is prohibited in State schools, and while many noble men and women are unconsciously molding life by the power of their Christian personality, there are many others who through this same power of personality hold, if not agnostic, anti-Christian influences upon the students. The State commands resources not available to the denominations, and Methodist students go where they can get what they want. If the Church is to conserve its young people—who go to the State institutions—to Christian citizenship, it must recognize this menace and prepare to meet it. A Church dormitory, near the campus, with positive Christian character, can create an environment which must do its part toward anchoring the children of the Church in the faith of their fathers.

VASHTI INDUSTRIAL SCHOOL, THOMASVILLE, GEORGIA...	\$100,000
Remodeling Administration Building, \$10,000; Laundry, Dining Room and Store, \$15,000; Three Cottage Homes, 16 Girls each, \$75,000.	

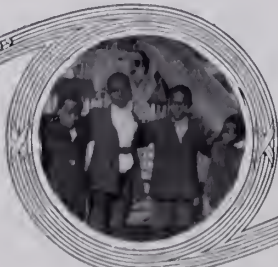

The by-product of our civilization is the broken, impoverished home of the helpless girl. For thirteen years the Vashti School has done a great work among these children at a time when they needed a friend. The present building is entirely inadequate. The method of conduct of the institution must be mended. This cannot be done until the cottage system is introduced.

HOSPITAL, SCARRITT BIBLE AND TRAINING SCHOOL, KANSAS CITY, MISSOURI	\$100,000
---	-----------

There is more demand for training Nurse Deaconesses than for any other work in the Church. The Deaconesses who have not had nurse-training real-

ize their limitations. The call for a hospital that will emphasize district nursing is a need for our city work. This Institution related to Searritt will add to the equipment of the only training school we have in the Church.

NEGRO WORK

Industrial training for girls at the Annex, Paine College, Augusta, Georgia; Bethlehem House, Augusta, Georgia; and Bethlehem House, Nashville, Tennessee, co-operating with the Sociological Department of Fisk University, represent our work for negro women and girls. Dormitories to accommodate 300 girls, a building for teaching industries, and an administration building, including a library, society halls, and a large dining room are to be erected at Paine College. The Bethlehem House at Nashville, Tennessee, is to be enlarged so as to include a chapel, class and club rooms, equipment for industrial training, and a gymnasium. The Augusta Bethlehem House must be remodeled and have new equipment, and the number of these houses multiplied wherever the need appears.

NEGRO WORK, \$243,000

PAINÉ ANNEX, AUGUSTA, GEORGIA\$448,000

Two Girls' Dormitories, each, \$40,000; Industrial Building, \$25,000; Administration Building, \$30,000; Model Home, \$2,500; Model School, \$5,000; Infirmary, \$2,500; Gymnasium, \$3,000.

The only negro school owned and directed by the women of the M. E. Church, South is Paine Annex. Dormitory provision is made for one hundred girls. Last year we turned away twice as many as we admitted. We are asking for two buildings like Bennett Hall which will accommodate two hundred more girls. The rooms used for industrial training are small and inadequate. Paine students could get better facilities than have been furnished them by our Church, but there is a loyalty on the part of the colored Church to the M. E. Church, South, which cannot be overlooked. Provision must be made for the children of our own denomination, because the C. M. E. Church is our own. At Paine there is no provision for sickness. An infirmary is demanded, according to the health program of the nation.

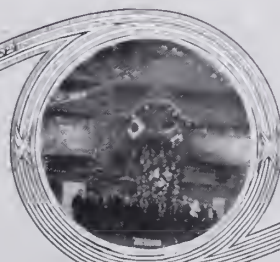

BETHLEHEM HOUSE, AUGUSTA, GEORGIA\$27,000

Cottage for Workers, \$5,000; Remodeling Bethlehem House, \$12,000; Laundry, \$10,000.

We own a small building where social and educational work is conducted in a densely populated negro community. A residence for the workers is a necessity. A laundry where the colored washerwomen may bring their laundry would be the greatest community benefactor that one could offer to the colored people.

THE BETHLEHEM HOUSE, NASHVILLE, TENN.

BETHLEHEM HOUSE, NASHVILLE, TENNESSEE\$68,000

Administration Building and Hall, \$50,000; Worker's Model Cottage,
\$8,000; Laundry, \$10,000.

An experience in racial co-operation for the betterment of the negro is in process here. The poor and ignorant negro waif, the unlettered mother, the sick, the needy who have not had a chance, are found by the Bethlehem House workers, Deaconesses and other trained workers. The educated negro men and women who have something to give their brothers are sought out and come to help serve the needy of their own race. The work at this point furnishes not only an opportunity for the up-lift of those who are in need, but it serves as a training center for the Social Service Department of one of the leading negro universities. This work, in which we have been engaged for six years, is housed in a rented building which is totally inadequate. For the institution to measure up even half-way to its opportunities all of the items asked for must be provided.

SCARRITT BIBLE AND TRAINING SCHOOL, KANSAS CITY, MO.
 TRAINING CENTER FOR WOMEN MISSIONARIES
 IN HOME AND FOREIGN FIELDS.

The Scarritt Bible and Training School is the ONLY School in the Methodist Episcopal Church, South, whose distinctive work is the training of missionaries for the Woman's Work at home and abroad. The School has rendered over twenty-five years of effective service, and over one thousand young women have received training within its halls. To meet the NEW needs created by the ENLARGED MISSIONARY CENTENARY PROGRAM of the Church, this institution must be enlarged and more substantially equipped. The Centenary Movement is calling for one hundred and fifty-nine well-equipped new women missionaries and deaconesses AS A MINIMUM for the next five years. The Scarritt Bible and Training School must be prepared to meet this new demand for the enlistment and training of life. There is no greater call through the Centenary.

CHINESE STUDENTS ATTENDING EVANGELISTIC MEETING

CHURCH EXTENSION

"The House of God—a house of brick and mortar, dedicated to His name—is one of the greatest Evangelistic forces I know anything about."

A great evangelistic drive in all the strategic and important centers in foreign fields will demand the building of temples of worship everywhere.

There are 2,420 homeless congregations and 1,600 homeless preachers within our home church.

Congested industrial centers of 20 cities urgently need assistance.

Forty industrial centers are in desperate need of institutional plants.

RECONSTRUCTION PROGRAM

The present world crisis challenges the Church of Christ to meet the needs of humanity in the spirit of sacrifice and service.

The war is still on and must be until we have made the world as safe for Jesus Christ as we have made it safe for democracy.

To the war-broken lands of Europe the Centenary will mean the rebuilding of ruined towns and villages, the care of orphans, the re-establishment of the people in their homes, the building of churches and the interpretation of Evangelical Christianity to the masses.

A special Commission of American Methodism visited France, Italy and Belgium.

They saw the ravages and cruelties the War of Autocracy had imposed upon people and country.

Their hearts were mightily moved with compassion and pity.

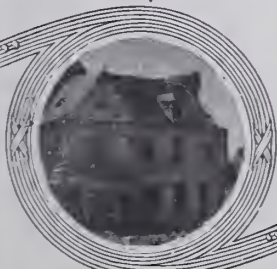

The details of a great constructive program of love and service are now being sympathetically wrought out.
